

HOW TO PHOTOGRAPH

Close-ups in Nature

NANCY ROTENBERG & MICHAEL LUSTBADER

CONTENTS

Preface	vii	Part VII: Natural Light	51
Acknowledgments	ix	Time of Day	51
Introduction	xi	Weather	51
Part I: Exposure	1	Manipulating Natural Light	55
Measuring and Controlling Light	1	Part VIII: Flash	65
Shutter Speeds	1	Achieving Balanced Lighting	67
Reciprocity	2	Hand-Held Flash	73
Metering	3	Modification of Electronic Flash	74
Exposing for Highlights	8	Multiple Flash Technique	74
Bracketing	11	Part IX: Esthetics	78
Part II: Depth of Field	12	Awareness	78
Factors Affecting Depth of Field	12	Becoming a Naturalist	89
Parallel Planes	13	Being Creative	90
Determining Depth of Field	17	Part X: Composition	91
Part III: Equipment	19	Defining Your Subject	91
Cameras	19	Backgrounds	98
Camera Features	20	Subject Placement	98
Lenses	20	Part XI: Adding Interest	99
Optical Accessories	24	Shapes and Patterns	99
Tripods and Accessories	27	Reflections	99
Camera Bags, Packs, and Cases	29	Texture	99
Part IV: Magnification Devices	30	Special Effects	103
Extension Tubes and Bellows	30	Part XII: Ethics and Etiquette	111
Reversing Rings and		Truth in Imaging	117
Stacking Rings	33	Part XIII: Favorite Close-up	
Other Devices	35	Locations	118
Part V: Filters	37	Our Backyard	118
Polarizing Filters	37	The Adirondacks	118
Warming Filters	41	The Oregon Coast	119
Enhancing Filters	41	Texas Hill Country	119
Stacking Filters	41	Zion National Park	119
Color-Compensating Filters	43	Colorado	119
Part VI: Film	46	Florida	120
Choosing Films	46	Resources	123
Film Processing	48		
Traveling with Your Film	50
