Notices:

Knowledge and best practice in this field are constantly changing.
As new research and experience broaden our understanding,
changes in research methods, professional practices, or medical
treatment may become necessary.

Practitioners and researchers must always rely on their own
experience and knowledge in evaluating and using any information,
methods, compounds, or experiments described herein. In using such
information or methods they should be mindful of their own safety
and the safety of others, including parties for whom they have a
professional responsibility.
